公司简介 COMPANY PROFILE

Gandian Lightning Protection Electric Co., Ltd. is a modern high-tech enterprise dedicated to the design, research and development, production, sales and service of lightning safety protection equipment. The company is located in the economic and technological development zone of Jiujiang City, the only international trade port city in Jiangxi Province. The total plant construction area is 39,960 square meters, the factory covers an area of 29,970.16 square meters, and there are more than 200 employees.

Through continuous reform and innovation, the company develops its own brand, showing a new look of internationalization, modernization and informationization. Break through high-end industries with focus, upgrade traditional industries with automation, actively build automated electrical equipment bases, gather a team of highly skilled experts, strengthen the simultaneous development of advanced equipment industry and modern service industry, have a variety of fully functional product performance testing laboratories, 8/20us 150kA compatible with 10/350us 25kA simulated lightning laboratory, 10/350us 120kA simulated lightning laboratory, 1.2/50us combined wave generator, 1.2/50us voltage generator, gap, discharge tube detector, thermal stability test system, lightning online monitoring system, intelligent lightning protection detection system, SPD backup protector power frequency current test, lightning non-trip current test system and a series of advanced detection equipment, to ensure the stability and innovation of our products!

Independently develop a number of advanced production and processing automatic assembly lines, which integrate automatic glue filling, automatic soldering, automatic laminating, pad printing, laser marking, automatic detection and uploading of data, automatic sealing and packaging and other automatic equipment to ensure each product consistency, fully guarantee efficient production and high-quality management, with unified planning of logistics, production, life and other service facilities, and strive to build a first-class intelligent production industrial base with international competitiveness.

The company took the lead in passing ISO9001 quality system certification, ISO14001 environmental management system certification, OHSAS18001 occupational health and safety management system, COC certification, European Community CE certification, TUV Rheinland certification, CB certification, Rohs certification, and established a system from software and hardware. A strict quality management system can meet the various needs of new and old customers with the fastest speed, the best products, and the best services; sales points are set up throughout the country, and the sales scope radiates to all provinces in China, Southeast Asia, South America, and Europe, Africa and many other places, the service scope is all over the country, and the high-quality products and good service have won the favor of the majority of customers.

The main products are power surge protector series, smart lightning protection series, smart surge protector series, smart lightning protection box series, signal lightning protection series, fuses, circuit breakers, photovoltaic connectors, transfer switches, photovoltaic cables, etc. The products are mainly used in the construction of urban and rural power grids, urban infrastructure construction, factory construction stages, major domestic and foreign oil fields, petrochemical companies, shipbuilding industry, offshore oil drilling platforms, military power construction, photovoltaic power generation, wind power generation, coal, petroleum, chemical, industrial and mining, hospitals, airports and other fields.

The company adheres to the corporate culture of "integrity first, happiness in the world, sharing and win-win", adheres to the spirit of "pragmatism, hard work, and dedication", and has the dream of "revitalizing national industry and assuming social morality". With the principle of trust, persist in realizing the new situation of "sustainable development, cooperative innovation", with the attitude of "professional, dedicated, rigorous, and eager to learn", always practice the glorious mission of "based on Rael Dunwei and build a world brand together".

Stamping and injection molding area

The stamping and injection molding area has 6800 square meters, 30 injection molding machines, 7 45T stamping machines, 5 35T stamping machines, 8 25 stamping machines, and the remaining 18 stamping machines of each tonnage.

The comprehensive production area has 8,100 square meters, dozens of production lines for various products, a simulation laboratory for lightning strikes, and various lightning protection products test instruments, etc.

GDPVXX/L1 DC Isolator Switch

● GDL1 Series DC Isolator Switch is applied to 1~20 KW residential or commercial photovoltaic system,placed between photovoltage modules and inverters.Arcing time is less than 8ms, Maxvoltage is up to 1200V DC.

- IP20 Protection Level
- Din rail mounted
- The handle can be locked in the "OFF" position
- 2 Pole,4 Poles are viable (Single Double String)
- Standard: IEC60947-3,AS60947.3
- DC-PV2,DC-PV1,DC-21B
- 16A,25A,32A,1200V DC

The main technical parameters

Electrical Characteristics	
Type	GDPV16-L1,GDPV25-L1,GDPV32-L1
Function	Isolator, Control
Standard	IEC60947-3,AS60947.3
Utilization category	DC-PV2/DC-PV1/DC-21B
Pole	4P
Rated frequency	DC
Rated operational voltage(Ue)	300V,600V,800V,1000V,1200V
Rated operational voltage(Le)	See the next page 1200V
Rated insulation voltage (Ui)	1200V
Conventional free air thermal current(Ith)	//
Conventional enclosed thermal current(Ithe)	Same as Ie
Rated short-time withstand current(Icw)	1kA, 1s
Rated impuised withstand voltage(Uimp)	8.0kV
Overvoltage category	II
Suitability for isolation	Yes
Polarity	No polarity, "+" and "-" polarities could be interchanged.
Service life/cycle operation	
Mechanical	18000
Electrical	2000
Installation Environment	
Ingress protection	Switch Body IP20
Storge temperature	-40℃~+85℃
Mounting Type	Vertically or horizontally
Pollution degree	3

Dimensions (mm)

		Electrical Characteristics
Type	GDPV16-PM2,GDPV25-PM2,GDPV32-PM2	
Function	Isolator, Control	
Standard	IEC60947-3,AS60947.3	
Utilization category	DC-PV2/DC-PV1/DC-21B	
Pole	4P	
Rated frequency	DC	
Rated operational voltage(Ue)	300V,600V,800V,1000V,1200V	
Rated operational voltage(Ie)	See the next page	
Rated insulation voltage (Ui)	1200V	
Conventional free air themal current(Ith)	//	
Conventional enclosed thermal current(Ithe)	Same as Ie	
Rated short-time withstand current(Icw)	1kA, 1s	
Rated impulsed withstand voltage(Uimp)	8.0kV	
Overvoltage category	II	
Suitability for isolation	Yes	
Polarity	No polarity,"+"and "-"polarities could be interchanged.	
Service life/cycle operation		
Mechanical	18000	
Electrical	2000	
Installation Environment		
Ingress protection	Switch Body	IP65
Storage temperature	-40℃~+85℃	
Mounting Type	Vertically or horizontally	
Pollution degree	3	

GDPVXX/ELR1 DC Isolator Switch

● GDELR1 Series DC Isolator Switch is applied to 1~20 KW residential or commercial photovoltaic system, placed between photovoltaic modules and inverters. Arcing time is less than 8ms, Maxvoltage is up to 1200V DC.

- IP66 rated enclosure, UV Resistant
- 2×mounting tabs, 4×M25 threaded holes
- The handle can be locked in the "OFF" position
- Mc4 plugs with adaptor or cable gland can be selected for convenient connection and space saving
- IP66 Air valve helps air flowing and reducing temperature 2 Pole, 4 Poles are viable (Single I Double String)
- Standard: IEC60947-3, AS60947.3
- DC-PV2, DC-PV1, DC-21B, 16A, 25A, 32A, 1200V DC

GDUKF AC Isolator Switch

● GDUKF series outdoor AC isolating switches are mainly used in outdoor scenes, such as docks, lighthouses, construction sites, etc., with good waterproof ability, waterproof level up to IP65, waterproof and dustproof, complete specifications, are manufactured with reliable components, meet the international standard requirements.

- IP65 Protection Level
- Din rail mounted
- Shell material: ABS
